WORLDS FASTEST PAD PRINTING MACHINES MADE IN GERMANY

Patented Sealed ink cup technology.
 Technology from the inventor & market leader in Pad Printing.
 Precise registration, excellent consistency compact & environment friendly technology.
 Excellent even for Automation on closures used in beverage, cosmetic & pharmaceutical industry.
 Electromechanical / electropneumatic / pneumatic pad printing machines.
 Low running cost , easy to run & maintain.
 Consistent innovations - From Standalones to Automations.

PREMIUM QUALITY PRINTING INKS

Pad printing inks , screen printing inks, UV flexo printing inks, gravure / flexo printing inks for plastics, glass & metals

Padprinting inks for woven & non-woven fabric, nylon, cotton, blends & polyesters etc.

Merlia inks for flexible material like EVA & PEVA.

Screen Printing Inks (Water & Solvent based)

INDUSTRIAL LASER MACHINES

EUROPEAN QUALITY - INDIAN PRICE

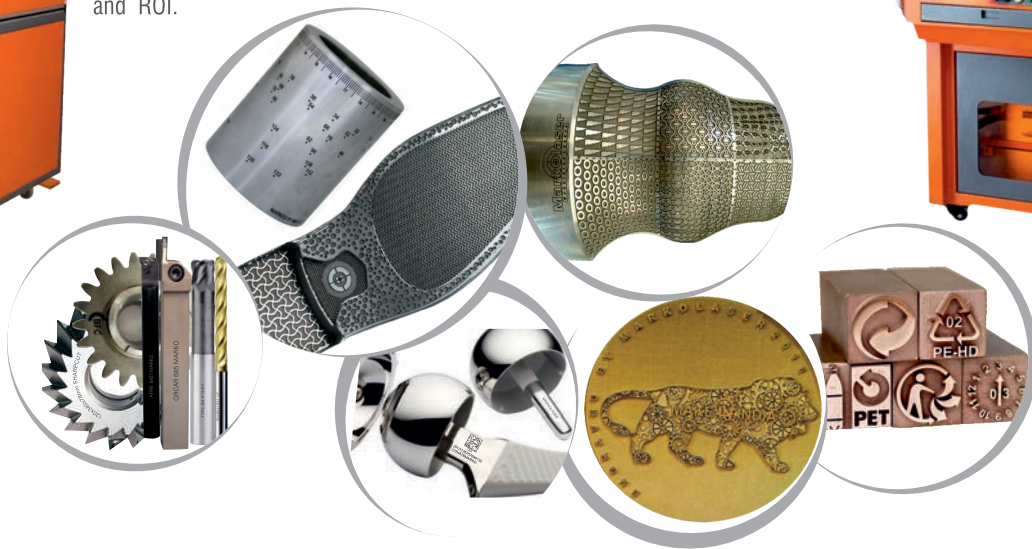

OPTICS - When used for material processing applications in manufacturing, offers an interesting array of possibilities which has made branding, traceability, aesthetics, precision manufacturing, machining, cutting, drilling, welding and many more applications, a mainstream manufacturing tool in many industrial sectors.

Markolaser has a deep knowledge of laser technologies ranging from applications as micro marking, annealing, scribing, cleaning, micro engraving, cutting, 2D engraving, 3D engraving, 3D engraving on curved surface, texturing and many others. When you associate with markolaser for its machines, you get committed for high quality products meeting international standards of warranted quality, reliability, round the clock service and application expertise.

Markolaser has been tried and tested by Automotive, Electronic, FMCG, Tools, Solar precision machinery, Surgical, Medical, Footwear, Tools & Dies and many more for its competence with other famous laser manufacturers for its precision, Service support and ROI.

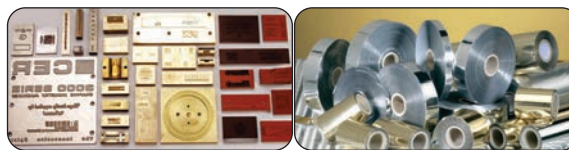

HOT STAMPING MACHINES

FOILS & DIES

CER a French company has always been a specialist in high technology for direct stamping on objects. Currently CER is the world leader in hot stamping for cosmetic products, closures, glass bottle and flexible tubes. The range of CER machines also meet the needs of various sectors such as domestic appliances, automotive and pharmaceutical industry. CER also sells a wide range of consumables for these machines.

DIES and FOILS are distributed under the brand "CER FOILS".

FULLY AUTOMATIC CNC CONTROLLED UNIVERSAL SCREEN PRINTING MACHINES

KBA-KAMMANN

Solid basic construction – For printing of cylindrical, Slightly Conical, Oval, Flat articles & other shape articles suitable for glass, plastic, and metal articles. Printing of up to 10 UV colors or 12 thermoplastic colors possible in one machine pass. Single-Captured-Tooling for perfect printing results. Color to color register accuracy: +/- 0.1 mm. Air inflation for plastic articles. Vacuum supply for plug-on articles. Optimized ratio between article printing and article transport time. Modern, ergonomic operating concept.
