NEW

LASER MARKING ON DRUMS

A New Concept

Contour laser marking machine mostly used to mark uneven curved stainless steel parts.

Special lasers for marking on curved large parts like drums with an area upto **250mm x 300mm** without any rotary motor. This can also mark on curved parts like donga & dish lids . This is a superb innovation for curved surfaces which are normal in stainless steel utensil industry.

CUSTOM PRINTING OF COLORS

Stainless steel decoration by pad printing has many challenges due to stringent life time requirements. We provide NON TOXIC, German colors which can withstand dishwashing up to 20 times and more. Many vibrant colors are possible in Gold, Silver and variants. The result is vibrant colors to decorate stainless steel utensils and Cutlery.

TAMPOPRINT®AG, Germany multicolor machines can produce vibrant colors on stainless steel.

Mark your logos or beautiful designs in durable non toxic inks
