JUSTMARK

L A S E R S F O R M A R K I N G

- Pocket friendly laser.
- Reliable MOPA technology.
- 2 Yrs warranty with Service & Support..
- Faster than most other Hallmarking machines.
- No missing characters even during long use.
- More curve marking.

JUSTMARK

 Laser marking

 max. working area (mm)
100x100

 max. workpiece weight
20 kg

 Materials
Metal, Plastic & more.

 Class IV

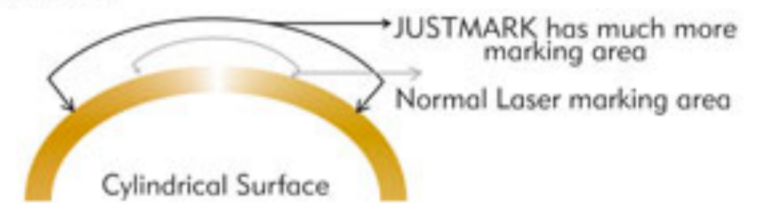

JUSTMARK
The mark of excellence

“Justmark” is a simple hardworking yet reliable laser for basic laser marking applications. In spite of being a lowcost laser marking laser solution, we have made **quality and reliability** as our first priority.

So how do we compare and differentiate from other low-cost systems :

- Great marking Quality.
- Much faster machines than most of our competition in this price bracket.
- Consistent power on full duty cycle.
- After sales service : We support **JUSTMARK** lasers even after two years with paid service support. So no worries even if those components are not available in market after the warranty period. We will take care.
- High resolution digital servo drivers automatically returns to its original factory tuning at the start of laser each time. So no need to calibrate the system every time when you start it.
- Sturdy constructions, computerized steel fabricated laser cut, powder coated structure.
- All our electronics ,cables etc. are of highest quality sourced from well known global suppliers .
- **JUSTMARK** lasers are constantly improved to consume lesser energy & higher quality output.
- Extremely low spare part consumption due to careful selection of sub assemblies & components used.
- Rotary axis: supplementary axis like rotary axis can be optionally installed.
- Backlash protection: one of the most important Reasons to opt for **JUSTMARK**, having an excellent backlash protection design of optoelectronics. This is a major cause of failure of lasers specially on steel, gold & silver.
- Our small but monolithic designs ensure the fiber cable is uninterrupted. So no laser power fluctuation.
- JUST MARK is a new option for clients who want to enter the laser marking business.

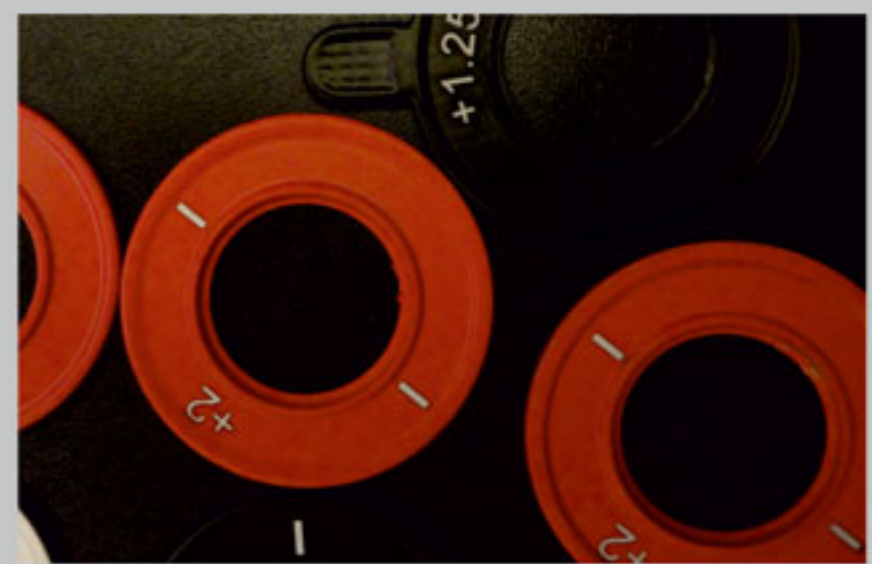

Marking on belt buckles

Marking on plastics

Customization on gift items

Marking on Rubber Gaskets

Marking & cutting of 3m stickers

Marking on high grade SS

Marking on mobile case

Marking on coated SS

Technical Specification

Model	JustMark 20W Q Switched	JustMark 20W MOPA	JustMark 30W MOPA
Laser Type	Fibre Laser	Fibre Laser	Fibre Laser
Average Output	20W	20W	30W
Frequency	20-100 kHz	30-250 kHz	30-250 kHz
Wavelength	1064nm ± 10nm	1064nm ± 10nm	1064nm ± 10nm
Pulse Energy	0.8mJ	0.6mJ	1.2mJ
Marking Area	100mm x 100 mm	100mm x 100 mm	100mm x 100 mm
Focal length of optics	160 mm (options available)	160 mm (options available)	160 mm (options available)
Technology	Q-switched pulsed	MOPA	MOPA
Peak Power	6Kw	8Kw	9Kw
M2	≤ 1.5	≤ 1.3	≤ 1.6
Red Alignment Laser	Included	Included	Included
Operating Temperature <small>(Air conditioned room recommended)</small>	25° C	25° C	25° C
Power Supply	230 V (AC) ± 10%, 50/60 Hz, 500 W	230 V (AC) ± 10%, 50/60 Hz, 250 W	230 V (AC) ± 10%, 50/60 Hz, 300 W
Safety Regulation <small>(Free safety eyewear)</small>	Class 4	Class 4	Class 4
Red Beam focal distance	Yes	Yes	Yes
Software Lock	Administrative control for operator	Administrative control for operator	Administrative control for operator
Foot Switch	Optional	Optional	Optional
Rotary (Motor)	Optional	Optional	Optional
